AZURE DEVOPS SERVER | RATIONAL FUNCTIONAL TESTER (RFT) | UNIFIED FUNCTIONAL TESTING (UFT)

## WHO WE ARE

Planet Technology, part of The Planet Group, is an award-winning Technology search and staffing firm. We build genuine, long-term relationships with our customers and consultants that go beyond initial engagements. We offer robust, flexible, custom-tailored QA solutions that improve the quality of software releases and get applications into production faster. We have the experience and methodologies required to turn your QA process into a well-oiled machine, whether you have a formal QA process or need to build a new one from scratch.

### IMPROVE

We'll take the QA process you have, improve it, and create documentation for it. Our proven methodologies allow us to handle systems and processes of varied complexities.

### IMPLEMENT

No formal QA process? No test cases? No problem. We'll implement testing using a proven strategy, and provide a thorough knowledge transfer to give your team full ownership over it.

# QA OFFERINGS

## MANUAL & FUNCTIONAL TESTING

**Analyze** requirements.  
**Build** custom test cases.
